About Us

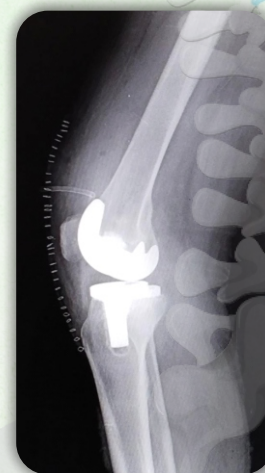

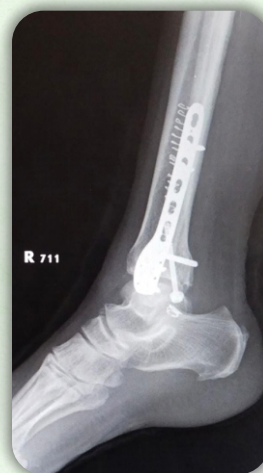

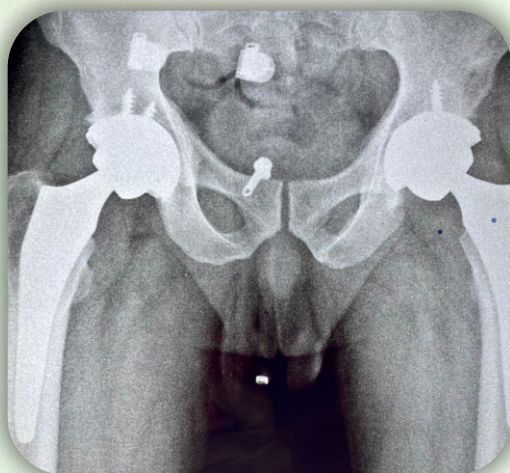

Shri Veerbhadreshwar Ortho Care & Rehabilitation Centre is a unique healthcare facility that has state-of-the-art infrastructure to reach out to the maximum number of people at an affordable price. As a flagship project of Shri Veerbhadreshwar Ortho Care & Rehabilitation Centre, the Clinic has a set of specific visions - trustworthy, reliable, best healthcare support, affordable, and a conducive ecosystem.

Orthopedics

Orthopedics refers to that branch of medicine that deals with the prevention and correction of skeletal system injuries or disorders including the spine, joint and associated muscles and ligaments. Mediversal, we aim to minimize your discomfort and get you back to normal functioning as soon as possible. Our clinical team of highly skilled surgeons, nurses and expert medical support staff backed by the latest state-of-the-art medical technology and infrastructure, all blended with our 'caring for life' compassionate treatment philosophy, provides our patients the best of Orthopedic treatment experiences.

Arthritis

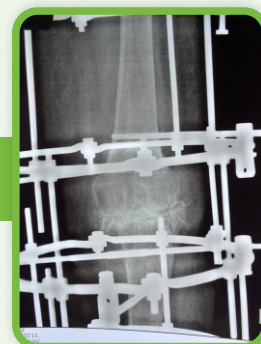

Arthritis is a term that includes a group of disorders that affect your joints and muscles. The symptoms include joint pain, inflammation, redness of skin around a joint, stiffness and limited movement of joints. There are over 100 different forms of Arthritis, the most common being Osteoarthritis (degenerative joint disease), which is a result of trauma to the joint, infection of the joint or age. Other forms of Arthritis are Rheumatoid Arthritis, Psoriatic Arthritis and related autoimmune diseases. Blood tests and X-rays can confirm Arthritis and the condition can be managed through a combination of medication, exercise, rest, weight management, nutrition and in some cases, surgery. Various surgical interventions are available for Arthritis depending on the severity of patient's condition and the doctor's assessment. Highly specialised Orthopedic Surgeons, Rheumatologists and physiotherapists use computer-assisted Orthopaedic Surgery techniques for maximum long-term effectiveness.
